FOR IMMEDIATE RELEASE

‘Rising Star’ Directs Select Telecom Marketing

Westchester County, NY – June 8, 2012. The Business Council of Westchester has honored Samantha Durante of Medley Media Associates as one of Westchester County’s outstanding up-and-coming professionals with a “40 Under 40” Rising Stars award. Samantha directs the marketing efforts for Select Telecom, and is also the daughter of Select Telecom President and CEO Michael Durante.

The members of the 2012 Rising Stars class were selected for their exemplification of leadership, foresight and vision for the future of Westchester County. Samantha and 39 other recipients of this year’s Rising Star award were honored at a reception on June 7th hosted by the Business Council of Westchester.

Select Telecom President Michael Durante said of the event, “I have been a member of the Business Council of Westchester for over 10 years and have been to this event before, but this one was different for me. It was a very special night since my daughter, Samantha, who started her own company, Medley Media Associates, was one of the award recipients. Samantha has only been in business for a little over a year and already her work has been recognized and appreciated by many of my peers in the area.”

Michael described his joy at being present for this year’s award reception. “To say that I am proud of her is an understatement. There’s not much more a father can ask for than to be a part of this!”
